a professional society for the advancement of strategic management

The Strategic Management Society (SMS) is unique in bringing together the worlds of reflective practice and thoughtful scholarship. The Society consists of nearly 3,000 members representing over 80 different countries. Membership, composed of academics, business practitioners, and consultants, focuses its attention on the development and dissemination of insights on the strategic management process, as well as fostering contacts and interchange around the world.

The Society is probably best known through the Strategic Management Journal (SMJ) published by John Wiley & Sons. This Class A journal has become the leading scholarly publication in the field of Strategic Management and is consistently rated one of the top publications in the management area. In 2007 the Society launched the Strategic Entrepreneurship Journal (SEJ) and in 2010 the Global Strategy Journal (GSJ). The intent is for these new quarterly publications to soon also become Class A journals and to promote the development and dissemination of advances in the field by maintaining the highest standards of intellectual thought combined with practical relevance, just as their sister publication SMJ has done for many years.
